Secretary Stanton's Order. Secretary Stanton has issued an imp tant order to General Howard, Chief of the Bureau of Refugees and Freedmen. It trict, or other commanders, adopting any system of passes for, or subjecting them to any restraints or punishments not imposed on other classes, are declared void; that neither whitee or blacks will be restrained from seeking employment elsewhere, when they cannot obtain it at a just compensation at their homes, and when not bound by voluntary agreements; and that they will not be hindered from travelling from place to place on proper and legitimate business. This order of the Secretary has respect to equal justice and the personal liberty of sedmen, which should be their right as well as the right of all other persons, and places freedmen and other citizens and inhabitants upon an equal footing in one or two of the most important respects which can be contemplated. To these gentlemen I will say that I was born and reared on ree soil, and that there I never saw a black man with a Roll of Honor being Prepared. FROM FORTRESS MONROE The Health of Jeff Davis. He is Permitted to Exercise Out of Doors.

I was told an amusing story last winter, while in Savanush, to this effect: There

the measure, was that all the folks in Sa vannah were "kin." WHAT SLAVERY HAS DONE. * Our land is swarming with thous-ands of cripples, some have lost legs and others arms; why do not these men go abroad among the people and hold up their shattered limbs and tell the slaveholder, This is what your institution has cost me. While you were basking in the sunshine and safety at home, I was at the front. When slavery took the form of armed re-bellion, and soldiers were called into the field to put it down, you found irresistible fascinations in the attractions of home — I did my duty. I return now to my home to drag out, through a few linger-

ing years, a miserable life; but mock me not. I do, in Heaven's name, implore you to stop this eternal parade before my aching eyes of this most odious in-stitution." Oh, that I had the power tonight to bring together all the slaveholders of this land and have them look on in solemn silence, while the crippled, the widows and orphans that have been made by this war, could pass before them in grand review and tell their tales of misery and wes that slavery has brought upon them; were their hearts not made of stone, they would make while sexing on each they would melt while gazing on such a scene, and with one voicesay: Let the land be at once rid of the curse that has caused such a dreadful scene. But, suppose we have no personal griavances over which to mourn, lat as east our eye down along the banks of the mighty father of waters, and the cause of the death of their husbands, sons, etc, starvation, exposure or shooting by prison guards at Andersonville, Ga, and Salisbury, N. C. and glance slong that broad and deep channel over which the red tide of battle rolled through the gorges of the Cumberland and down along the plains of Georgia, on to the sea. Then pursue it around through the Carolinas, to Raleigh, and all over the crimsoned soil of Virginia, and as you count the almost countless graves that lie all along the banks of that river of blood, thick as "autumn leaves in Vallambross," pause for one moment to contemplate the ess of tears, the paroxyams of unutterable agony, all these must have cost when "somebody's darling" had to fall at every blow, and then tell me, if you can, when

has snapped in twain the tenderest ties of social society. It has caused desolation to reign in princely palaces, where happiness had always held its revels. It has smitten bern in the lap of luxury.

How, under Heaven's name, can any of selfishness, desire to see such a cause of sorrow and suffering, injury and infamy, hypocrisy and hate, perpetuated among theinstitutions of his country? In Heaven's name, I implore you, strike at once, and deal it a death blow. Let it be procisimed from the ends of the rivers to the ends of the earth, that we live in a land of univer-

umas and his Historical Characters

The Paris correspondent of the American Publishers' Cirlcuar mys:

"M. Alex, Dumas has appeared before our courts as the defendant an an interesting suit to determine the liberties which writers may take with historical persons. The dramatic episode in the life of Marie Antoinette (which was so full of dramatic episodes) known as the "Journey to Varennes," tempted M. Dumas. He made it the themps of a novel. It happened that a the theme of a novel. It happened that a M. de Prefontaine, a chevalier de St. Louis and a half-pay major, was drawn into this history. He lived at Varennes, and, either by accident or design, he opened his door when the carriages drove up. It was half-past eleven o'clock at night. Count de Moustier (one of the body guards who accompanied the royal party) had got out of the carriage to find somebody who would point out to him the road from Varennes to Stenay, Perceiving a light and an open door, M. de Moustier made for him, but the door was instantly closed. M. de Moustier burst it open. Let us quote M de Moustier's narrative: "Thereupon a manual appeared and asked what was wanted appeared and asked what was wanted. The reply made was, "To ask you to show me the road leading out of town towards Stenay." The man said: "I would do so willingly, but I should be hanged if it was known." M. de Mouster observed that he was too well-bred not to do to do anything

was too well-bred not to do to do anything to serve a lady. He answered, "We know all about it; it is not lady."

"Thereupon M. Ce Moustier abruptly broke off conversation to let the king know what had taken place. The king ordered him to return and bid the man come to his majesty. M. de Moustier went back and said; "My mistress has charged me to beg you come and talk with her." This man dared not absolutely dischar, because man dared not absolutely disobey; he went to the carriage hareful, so as to make less note. He got up the carriage steps, and, after talking a moment with her majesty, he led M. de Moustier to the commandant mandant at one o'clock, A. M., if he failed

M. Dumas dramatises Mous tier's narrative by putting it in the form of a dia ogue. Valory says: Sir, we are goindicate the road to us? "M. de Valory tried to deny it." The Queen drew him back, saying, 'Let us lose no time in discussion; go tell the king I am recognized.' M. de Valory hastened to the carriage, and in a few words told the king what had taken place. The king said: 'Ask that man to come and speak to ma.' The man obeyed, and advanced to the carrisge-door, not without marks of lively apprehension. "What is your name?" De Prefontaine, sire." "Who are you?" The king added: 'Sir, have you heard whether the humars and relay-horses expected a treasure which was to pass through Varen-nes? 'I die hoar so, sira.' 'Where are these hussars? The Prefon-taine family moved the court to order M. Dumas to insert the ex-ract from M. de Valory's memoirs in the next edition of this novel. The lower court granted the versed this judgment upon the ground that M. Dumas was at liberty to give preference to Moustier's narrative, and that he aithfully followed it in substance"
